

As a listener and subscriber to K-LOVE radio, I would be negatively impacted every day if the station was no longer available. K-LOVE offers a clean & moral alternative to secular music and disc jockeys which is tremendously important to the youth in our country. To be totally dominated by a secular worldview would be an infringement on our rights to have moral alternatives. There can be no good purpose for allowing this station to be eliminated due to poor transmission capabilities. I ask that you seriously rethink and reconsider this proposal for the sake of many thousands of people who financially support this station.
